Office Action Summary

Art Unit: 1732

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9 and 13-18, drawn to a method, apparatus and gasket for molding a lens.

Group II, claim(s) 10-12, drawn to a polymerizable resin.

Group III, claim(s) 19, drawn to a front mold.

Group IV, claim(s) 20-25, drawn to a method of coating a substrate.

Group V, claim(s) 26 and 27, drawn to a coating material for a substrate.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The claims of Groups II-V do not share the same special technical feature of the gasket with a lower inner edge which has an upper surface by which the front mold is removably sealed and held in position in the gasket.

A telephone call was made to Mr. Randall on August 29, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is

Art Unit: 1732

advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
